The 1st Mini Album
공감

There was a time the word 'Empathy' didn't click with me, but I recently felt the word has huge energy in it. I wanted to share what I felt with others, so I made 'Empathy' as the main theme of the album, also as its title.

Si Fueras Mía

I focused on doing the music that I've always wanted to try. I like the acoustic guitar sounds which make me feel relaxed. So I filled my album with songs featuring guitar sounds in hopes that everyone could feel comfortable listening to it.

After choosing 'Empathy' as the main theme, one of the thoughts about lyrics that came to mind was love that anyone would experience, and comfort like my previous single 'That's okay' could give. So I decided to write the lyrics myself to express these thoughts. The title track 'Rose' for the love, and 'I'm Fine' for the comfort.

MINOLTA

I included the English version of 'Rose' and the Spanish version of 'It's Love'. The original demos were in English and Spanish respectively, and I liked the lyrics and the feelings upon listening to them the first time. So I sang them as bonus. I hope they could be special gifts for my fans.
